The Shand Greenhouse has grown and distributed over 12.5 million seedlings to date. Various groups, environmental agencies and our customers plant our seedlings each year. The seedlings are mainly used to:

- Help our rural customers to establish shelterbelts on their own properties
- Help create habitat for wildlife in conservation projects

To grow the seedlings year-round, we use waste heat from the adjoining Shand Power Station. This heats the Shand Greenhouse and allows us to offset our emissions generated by the burning of fossil fuels.

Apply for Free Seedlings

The application window for Spring 2023 seedlings will open on **August 2, 2022.**
